Double the fun with two scala rider Q2™ MultiSet PRO headsets in one package

The scala rider Q2™ MultiSet PRO offers bikers top quality intercom communication between two pre-paired headsets for a distance of up to 700 m / 2,300 ft*.

The scala rider Q2™ MultiSet PRO features technological advances for smooth and effortless communication. Embedded PLC (Packet Loss Concealment) technology allows real-time compensation of audio losses in challenging environments and makes your conversations sound clearer than ever.

Thanks to MDC (Multiple Device Connection) technology, the scala rider Q2™ MultiSet PRO allows bikers to receive GPS voice instructions, communicate with other bikers or with a passenger on the back seat via intercom, conduct calls on their mobile phones and listen to music and radio.

Entertainment features now include wireless A2DP stereo music or MP3 player connection via cable as well as built-in FM radio with RDS.

Special Features Include:

- Bike-to-Bike Intercom: Alternate between 2 other riders within a range of 700m / 2,300 ft*
- Rider-to-Passenger communications: Both Rider and Passenger can communicate via intercom as well as independently conduct mobile phone calls, listen to MP3 music in stereo or to the built-in FM radio.
- Full Duplex: No longer the walkie-talkie syndrome where one party can only speak when the other is silent. The scala rider Q2™ MultiSet PRO allows bikers and passengers to talk and listen simultaneously.

The scala rider Q2™ MultiSet PRO is also available with a cored microphone to fit even the tightest full-faced helmets.

Multiple Device Connectivity ("MDC")

Thanks to MDC technology the scala rider Q2™ MultiSet PRO offers parallel connectivity as follows:

- Alternate between two additional scala rider headsets on intercom mode and one of the following Bluetooth devices:
  - Mobile Phone (either directly or via a GPS device)
  - GPS device
- A2DP enabled MP3 Player or Adapter
- Priority Management: No need to manually disconnect from intercom or music to receive incoming phone calls or GPS instructions!

Additional entertainment features:

- Built-In FM Radio with RDS
- Connection to an MP3 Player (cable included)

* Results may vary according to terrain
### scala rider® Q2™ MultiSet PRO

#### Dual ultra-slim speakers

#### Noise canceling microphone

#### Large Control Button
- Power On / Off
- Phone & GPS Pairing
- Phone functions
- A2DP function

#### Audio Features
- Noise cancellation microphone
- AGC technology: automatic volume adjustment according to speed and ambient noise
- PLC (Packet Loss Concealment): Real-Time compensation of audio losses in challenging environments
- VOX technology: accept or reject calls by voice commands
- Speaker booster

#### Functional Features
- Fits virtually all full-faced and ¾ helmets
- Quick-release mechanism for headset
- Two ultra-slim speakers – 5.7 mm / 3/16” thickness
