

scala rider®

Q2™ MultiSet Bike-to-Bike Intercom Communication*
up to 500 m / 1,640 ft (Full Duplex)

Double the fun with two scala rider® Q2™ headsets in one package

The **scala rider Q2 MultiSet** offers bikers top quality, intercom communication between two pre-paired Q2 headsets for a distance of up to 500 m / 1,640 ft*.

The MDC (Multiple Device Connection) technology allows bikers to receive GPS voice instructions, communicate with other bikers or with the passenger on the back seat, conduct calls on their mobile phone and listen to the embedded FM radio.

Now each headset includes an MP3 jack so bikers and passengers can listen to their favorite tunes from their own MP3 player by just plugging it into the unit.

Special Features Include:

- Bike-to-Bike intercom communication between up to three bikers within a range of 500 m / 1,640 ft*.
- Rider-to-Passenger communication** : Both Rider and Passenger may communicate via intercom as well as independently conduct mobile phone calls, listen to the MP3 player in stereo or the FM radio.
- Full Duplex: No longer the walkie-talkie syndrome where one party can only speak when the other is silent. The **MultiSet** allows riders and passengers to talk and listen simultaneously.

The scala rider Q2 MultiSet is also available with corded microphones to fit the tightest full-faced helmets.

2 HEADSETS INCLUDED

Bluetooth®

Multiple Device Connectivity ("MDC")

Thanks to MDC technology the **scala rider Q2** offers parallel connectivity as follows:

- **Two additional scala rider headsets** on intercom mode **and one** of the following *Bluetooth* devices:
 - Mobile Phone (either directly or via a GPS device)
 - GPS device
 - Adapter

Priority Management: No need to manually disconnect from intercom or music to receive incoming phone calls or GPS instructions!

Additional entertainment features:

- Embedded FM Radio
- Connection to an MP3 Player (cable included)

* Results may vary according to terrain
** Reduced operational range when connected to earlier **scala rider** models
