## TeamSet™ PRO Rider-to-Passenger Wireless Intercom System

### PAIRED UP AND READY TO GO

The **scala rider TeamSet PRO** for motorcycle helmets offers *Bluetooth* handsfree wireless communications both via intercom with your Passenger and your mobile phone.

The **scala rider TeamSet PRO** automatically adjusts its sound level as your riding conditions change.

Special features for each headset include: transmitting GPS navigation instructions from a GPS device and the ability to initiate, accept or reject incoming calls independently by voice control, thus keeping both hands on the handlebars.

Each headset includes an MP3 jack so that both Driver and Passenger can listen to their favorite tunes—in stereo—from their own MP3 player by just plugging it into the unit.

2 HEADSETS INCLUDED

Bluetooth®

- VOX Technology – receive, initiate, and reject calls by voice control
- Full Duplex – Driver and Passenger can talk and listen to each other simultaneously
- GPS – transmit navigation instructions from your GPS unit
- Listen, in stereo, to your MP3 player (cable included)
- Weather protected headset fits virtually all full-faced and ¾ helmets
- Easy installation within minutes
- AGC Technology automatically self adjusts speakers' volume according to speed and ambient noise
- Dual Ultra-slim Speakers for superb audio
- Up to 10 hrs. Talk-time / 1 week standby
